

Teresa Price
First Grade Teaching Assistant
teresa.price@libertytechcharter.org

Mrs. Price is in her first year teaching at Liberty Tech. After 10+ years as a home school teacher to her two daughters, Haley (19) and Amanda (14) she decided to join the Liberty Tech family as a teaching assistant. She strongly supports the schools mission, that students learn best with project-based learning. STEAM allows for rigorous learning opportunities, similar to those she used while homeschooling her own children. She feels this allows her students to take ownership of their learning, while enabling her to act as a facilitator of learning. She loves that students are also taught our four cardinal virtues. These virtues will provide a firm foundation for the students as they seek to be successful in all aspects of life. She is currently the teaching assistant for Ms. Green's 1st grade class. Mrs. Price is a graduate of Fayette County High School and has lived in this area for many, many years. She attended Clayton State College, but did not complete her degree. She hopes to return soon to complete it. She is happily married to Mark Price and has two wonderful daughters. She also has two cats at home. (Stripes and Jagger)
