

Jodi Smith
Instructional Support Teacher/ EIP Specialist
jodi.smith@libertytechcharter.org

Jodi Smith brings to Liberty Tech a vast array of experience along with her formal education. She began her career working with preschool aged children in Daycare as both a teacher and a Director. This opportunity provided her with a deep understanding of early childhood developmental stages. She has also worked with students in Kindergarten all the way through fifth grade over her 20 year career in elementary education. Having taught every grade level and students with varying needs, she is able to support teachers and students at the different levels represented at LTCS. Liberty Tech is a dream come true and a perfect match for what she believes about education.

Jodi is married to Tim and lives in Newnan. They have a blended family with 4 adult children, 4 amazing granddaughters, and one dog. They own their own business, have their own ministry, and volunteer at their local American Legion. In their spare time, they enjoy going camping, riding motorcycles, writing, and cooking together.
