

Veronica Umstattd  
School Health Specialist  
[veronica.umstattd@libertytechcharter.org](mailto:veronica.umstattd@libertytechcharter.org)

Mrs. Umstattd began her career in medicine during her three-year pediatric internship as a teenager. She later went on to study emergency medicine, receiving her EMT-I certification at Southern Crescent College and RMA certification with AMT. She studied psychology, human genetics, and completed her nursing core at Clayton College and State University. She practiced a year in Ophthalmology, a year in Otolaryngology, and five years in family practice. She is currently certified in CPR and AED and has completed specialized training in Asthma Management, Anaphylaxis Management, and Concussion Training through the CDC.

Mrs. Umstattd came to Liberty Tech in 2016 as a P.E. coach contracted through the Y.M.C.A. During this time, she made lasting connections with the students and saw a vision of an educational system that she wanted to be a part of. She is very excited to be part of the Liberty Tech Team! She hopes to not only keep the students healthy and safe, but to utilize moments where she can educate students on prevention, diet and exercise, as well as healthy lifestyle choices.

Mrs. Umstattd is married to Bill Umstattd and they have three boys: Austin, Anthony, and Aiden Umstattd. Bill and Veronica met during EMT school and shared a common interest of serving and helping others. Their family enjoys camping, riding bikes, and EPIC Nerf wars. (Veronica is currently undefeated.)
