

Susan White
Second Grade
susan.white@libertytechcharter.org

Mrs. White moved here from the West Coast with her husband and three children, anticipating the joy of being surrounded by lots of trees, ponds, and rain, all of which she loves. Her hobbies include reading, being active at church, gardening and cycling. However, most of her free time is spent driving to and from soccer for her girls. As a teacher, she counts it such a supreme privilege to be here and to daily inspire a love for learning and a joy for exploring the written word with all her students.
