# OVERVIEW:

## *Comprehensive Performance Framework for State Charter Schools*

---

### PURPOSE

---

Quality charter school authorizers establish standards for school performance that are clear, quantifiable, rigorous, and attainable. The SCSC Performance Framework includes academic, financial, and organizational performance measures that establish expectations, guide practice, assess progress, and inform decision making over the course of the charter term and at renewal or revocation.

The three areas of performance covered by the frameworks—academic achievement, financial management, and organizational compliance— correspond directly with the three components of a strong charter school application and are the three areas on which a charter school’s performance should be evaluated. In each of the three areas, the framework asks a fundamental question:

1. Academic Performance: Is the educational program offering students a better educational opportunity than they would otherwise receive at a traditional public school?
2. Financial Performance: Is the school financially viable?
3. Organizational Performance: Is the organization effective, compliant, and well run?

---

### SCSC PERFORMANCE EXPECTATIONS

---

State Charter Schools are expected to meet academic, financial, and operational standards during every year of the charter term. However, schools that demonstrates a consistent track record of strong performance over multiple years may earn a standard five-year renewal. Additionally, schools that finish their first charter term strong (despite early struggles), and schools that consistently perform on par with the attendance zone they serve may earn an abbreviated three-year charter renewal. The intent of an abbreviated charter term is to assess the school’s ability to sustain the requisite performance level.

SCSC renewal eligibility criteria are meant to serve as a guideline to inform renewal decisions. However, the SCSC may exercise discretion in approving renewal terms outside of these guidelines.

#### **A New School (i.e. a school concluding its first/initial charter term):**

To earn for a standard five-year renewal, a school must:

- A. meet financial and operational standards at least 50% of the time, OR
  - B. meet financial and operational standards in the most recent year of the charter term for which we have data,  
AND
- meet academic standards at least 75% of the charter contract term.

To earn an abbreviated three-year renewal, a school must:

- meet financial and operational standards in the most recent year of the charter term for which we have data,  
AND
- A. perform at least as well as<sup>1</sup> (no more than 3% below) the attendance zone on any one or combination of the CCRPI indicators in all relevant grade bands in the most recent year of the charter term for which we have data,  
OR

---

<sup>1</sup> The phrase “as well as” in terms of state charter school renewal eligibility equates to having a score that is no more than 3% below the comparison attendance zone score.

- B. outperform on the VAM or be designated BTO in the most recent year of the charter term for which we have data, OR
- C. perform at least as well as the attendance zone on any one or combination of the CCRPI indicators outlined within the CPF, 75% of the time.

**A Tenured School (i.e. a school concluding a second or subsequent charter term):**

To earn a standard five-year renewal, a school must:

- meet academic, financial and operational standards for a majority of the contract term (3 of the first 4 years of a 5-year charter contract term or 2 out of 3 years of a 3-year charter contract term).

To earn an abbreviated three-year renewal, a school must:

- meet financial and operations standards 75% of the time AND
- meet academic standards or perform at least as well as the attendance zone on any one or combination of the CCRPI indicators outlined within the CPF 75% of the time.

## SECTION I: ACADEMIC PERFORMANCE

### Fundamental Question

Is the educational program offering students a better educational opportunity than they would otherwise receive at the traditional public school?

### Indicators

To answer the above question, the SCSC uses performance metrics derived from:

- the [College and Career Ready Performance Index \(CCRPI\)](#), the statewide accountability tool. The CCRPI includes a content mastery component that assess student proficiency and a progress component that uses student growth percentiles to assess student growth. And from,
- Two statistical predictive measures that take into consideration the school’s student body make-up, the [Value-Added Model \(VAM\)](#) and the [Beating the Odds \(BTO\)](#) measure.

### Meeting Goals

A state charter school can meet annual SCSC academic accountability standards by outperforming its attendance zone in terms of student achievement or growth as measured by the CCRPI Single Score, CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band Score, Value-Added Model impact scores, Beating the Odds designation.

**A state charter school only needs to outperform the attendance zone it serves on one, *not all*, of the academic metrics.** For schools that serves multiple grade bands, a combination of grade band measures (CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band, and Value-Added Model (VAM) scores) can be used to demonstrate performance. The school must outperform the district(s) it serves on any one or combination of grade band measures in all grade bands served.

### SECTION I, ACADEMIC PERFORMANCE MEASURES

Measure	Designation Earned	Explanation
• CCRPI Single Score	NA	The disruption in teaching and learning caused by the COVID-19 pandemic led the United States Department of Education (USED) to grant the Georgia Department of Education’s (GaDOE) assessment and accountability waiver request for the 2019-2020 school year. As such, the statewide summative assessments, the Georgia Milestones Assessments were not administered in the 2019-2020 school year. Georgia Milestones Assessment data are critical to calculating all SCSC CPF academic performance metrics (e.g., the College and Career Readiness Performance Index [CCRPI], Value-Added Measure [VAM], and Beating the Odds [BTO]). Thus, no academic data are available to report. To not penalize state charter schools and to allow for adequate performance data for charter renewal consideration, the SCSC extended state charter school contract terms by one year. While 2019-2020 operational and financial scores were still calculated, these scores will only be included in charter renewal considerations if they improve a school’s renewal status.
• CCRPI Content Mastery	NA	
• CCRPI Progress	NA	
• CCRPI Grade Band Score	NA	
• Value- Added Impact Score	NA	
• Beating the Odds	NA	

## SECTION II: FINANCIAL PERFORMANCE

### Fundamental Question

Is the school fiscally responsible and financially viable?

### Indicators

To answer the above question, the SCSC uses data, mostly derived from each school’s independent financial audit, to assess a schools performance on near-terms measures, which are used to calculate a charter school's ability to cover its short term (less than 1 year) financial obligations and sustainability measures which are used to determine a charter school’s ability to cover long term obligations as well as their ability to effectively control cost.

1. The near-term measures include current ratio, unrestricted days cash, enrollment variance, debt to income ratio and a default measure.
2. The sustainability measures include an efficiency margin and debt to asset ratio.

### Meeting Goals

In any year of the charter term, a state charter school will satisfy annual financial accountability requirements by earning enough points across near-term and sustainability measures to secure of financial score of at least 80 which equates to meeting financial standards.

### Indicators

In order to answer the question above, the SCSC uses data from agency monitoring and other sources as noted in the appendix of this document to determine compliance with the indicators listed below.

2. Financial oversight such as adherence to GAAP standards;

### SCSC PERFORMANCE EXPECTATIONS

---

State Charter Schools are expected to meet academic, financial, and operational standards during every year of the charter term. However, schools that demonstrates a consistent track record of strong performance over multiple years may earn a standard five-year renewal. Additionally, schools that finish their first charter term strong (despite early struggles), and schools that consistently perform on par with the attendance zone they serve may earn an abbreviated three-year charter renewal. The intent of an abbreviated charter term is to assess the school’s ability to sustain the requisite performance level.

SCSC renewal eligibility criteria are meant to serve as a guideline to inform renewal decisions. However, the SCSC may exercise discretion in approving renewal terms outside of these guidelines. Please refer to page 2 of this document for more detail.

The disruption in teaching and learning caused by the COVID-19 pandemic led the United States Department of Education (USED) to grant the Georgia Department of Education’s (GaDOE) assessment and accountability waiver request for the 2019-2020 school year. As such, the statewide summative assessments, the Georgia Milestones Assessments, were not administered in the 2019-2020 school year. Georgia Milestones Assessment data are critical to calculating all SCSC CPF academic performance metrics (e.g., the College and Career Readiness Performance Index [CCRPI], Value-Added Measure [VAM], and Beating the Odds [BTO]). To not penalize state charter schools and to allow for adequate performance data for charter renewal consideration, the SCSC extended all state charter school contract terms by one year. While 2019-2020 operational and financial scores were still calculated, these scores will only be included in charter renewal considerations if they improve a school’s renewal status.
